DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-33, drawn to a planning system for a cryoablation procedure, classified in class 600, subclass 416.
- II. Claims 34-69, drawn to a surgical facilitation system for facilitating a cryoablation procedure, classified in class 600, subclass 410.
- III. Claims 70-76, drawn to a cryoablation method, classified in class 606, subclass 20.
- IV. Claims 77-109, drawn to a method for planning a cryoablation procedure, classified in class 600, subclass 300.
- V. Claims 110-148, drawn to a method for facilitating a cryoablation procedure, classified in class 128, subclass 828.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, inventions I-V have separate utilities such as developing a mathematical 3-D model of the intervention or surgical site, creating

several images of the surgical site, or establishing a robust method for cryoablation of the surgical site. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II-V, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter J Vrettakos whose telephone number is 703 605 0215. The examiner can normally be reached on M-F 9-6.
